Docket No. 98N-1265 36 '99 MAY 13 P1:56

Food and Drug Administration

5600 Fishers Lane

Rockville, MD. 20857

I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

Date

COMMENTS:

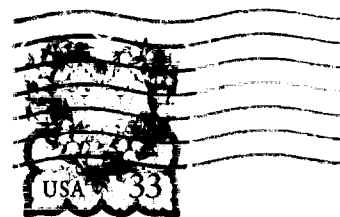

I have myasthenia gravis, and had a hysterectomy in 1987. I have tried many forms of hormone replacement, but they exacerbate my MG symptoms, and I have migraine headaches. This past year I have been taking compounded natural hormones and the relief has been wonderful. In addition to these hormones not exacerbating my MG symptoms, they have helped alleviate symptoms of depression, sleeplessness, and mood swings. Also, my last bone density showed osteopenia. Hopefully the hormones will help this too. Please allow the specialized pharmacies to continue their work, without these pharmacies, ~~and~~ and their ability to ship across state lines, many women's lives will be adversely affected.

Please fold, seal, and mail by June 1
